Seminar (9:00 am – 11:00 am)

■ Overall Goals

Osaka Chamber of Commerce and Industry (OCCI) has strategically promoted academia-industry collaboration for years. This seminar, as an official event of "Kansai Innovation Comprehensive Global Strategic Special Zone," will offer doctors and industries a unique opportunity to learn the current status of medical device R&D in Japan and selected foreign countries.

Attendee participation and interaction will be facilitated through Q&A sessions. Simultaneous translation will be provided for the entire session.

Kobe Portopia Hotel South Wing B1F, Ballroom "Sapphire"

□ Opening Remarks
Masataka Nakagawa
Director, Economy and Industry Division, OCCI

□ Introduction
Kiyokazu Nakajima, MD
Professor and PI, Project ENGINE, Osaka University

□ Panel Discussion
Moderator: Yoshiyuki Taenaka, MD
Deputy Director of Research Institute, National Cardiovascular Center
Deputy Director, Cabinet Secretariat, Office of Medical Innovation

1. Spain status and special input of "WIDER-Barcelona"
Jose Ramón Armengol-Miró, MD (Vall d'Hebron Hospital, Barcelona, Spain)
2. A low profile trocar design and ongoing R&D activities of "Carilmed Team"
Senol Canilli, MD (American Hospital, Istanbul, Turkey)
3. Development of drug-eluting stent in Korea
Dong Ki Lee, MD, PhD (Yonsei University, Seoul, Korea)
